ALL IN ONE SKIN REMODELING

Defining the ViVi Ampoule Solution

Peeling Treatment

Next-Gen Resurfacing Solution:
Non-Invasive Micro-Peeling and
Deep-Tissue Moisture Lock.

Technology

Synergized by MPPT™: A
Precision Peel Protocol for
Instant Plumping and Luminous
Whitening.

Skin Benefits

Triple-Action Synergist:
Dermal Plumping, Radiant
Whitening, and Deep
Hydration.

Brand Essence

The Art of Skin Renewal

Premium Solution

ViVi offers a **premium ampoule solution** that seamlessly combines gentle peeling with effective collagen stimulation, ensuring that clients experience the best skin transformations without downtime or discomfort.

Professional Focus

Designed specifically for **professional skincare clinics**, ViVi targets the need for results-driven treatments that provide visible benefits, all while ensuring a gentle and non-invasive experience for clients.

Clinical Philosophy

The Art of Gentle Skin Transformation

Non-Invasive Excellence

ViVi prioritizes gentle cellular renewal, fostering natural restorative processes without the need for aggressive intervention. Our approach ensures a soothing experience that honors skin integrity while delivering profound, visible results.

Seamless Recovery (Zero-Downtime)

Unlike conventional peeling treatments, ViVi provides a zero-downtime solution. This allows clients to resume their daily lifestyle immediately, ensuring a comfortable journey toward optimized skin health and radiance.

Core Technology

The Science of Sustained Rejuvenation

Controlled Renewal with PLLA

ViVi utilizes biodegradable PLLA to harmonize the exfoliation process. By regulating the interaction between BHA and PHA, it ensures a gentle yet high-performance renewal cycle that eliminates unnecessary downtime.

Targeted Collagen Remodeling

Our slow-release innovation allows actives to penetrate deeply and consistently. This triggers long-term collagen synthesis, resulting in a visible restoration of dermal density and a refined, more resilient skin surface over time.

The MPPT™ Advantage

MPPT™ redefines skin rejuvenation by delivering transformative results in clarity and texture. This proprietary technology maintains the delicate balance of the skin barrier while ensuring maximum efficacy through non-invasive methods.

Key Ingredients for Optimal Skin Health

BHA Beta Hydroxy Acid

Precision Exfoliation & Path Opening

An aromatic compound with adjacent hydroxyl (-OH) and carboxyl (-COOH) groups on a benzene ring. Its lipophilic (oil-soluble) nature allows it to penetrate deeply into lipid-rich pores to dissolve sebum.

HA Hyaluronic Acid

Structural Volumizing & Dermal Plumping

A high-molecular-weight polysaccharide consisting of alternating D-glucuronic acid and N-acetylglucosamine. Its long-chain structure has the unique ability to bind and retain water molecules up to 1,000 times its own weight.

PHA Polyhydroxy Acid

Intensive Hydration & Radiance Activation

A complex acid formed by the combination of gluconic acid and galactose. With 8 hydroxyl (-OH) groups, it acts as a "moisture magnet." Its large molecular size ensures gradual skin absorption, providing high efficacy with minimal irritation.

PLLA Poly-L-Lactic Acid

Structural Volumizing & Dermal Plumping

A biodegradable polymer composed of repeating L-lactic acid units. As these particles slowly biodegrade within the skin, they trigger sustained neocollagenesis, inducing natural collagen production for long-term structural volume.

4-Step Mechanism

Open
(Pathway Activation)

BHA clarifies pores and opens absorption pathways for high-performance results.

Refine
(Hydra-Resurfacing)

PHA smooths skin texture while activating deep hydration for a luminous glow.

Signal
(Volume Stimulation)

PLLA and peptides send signals to boost natural collagen, restoring youthful density and firmness.

Renew
(Total Rejuvenation)

Continuous renewal cycles result in balanced, healthy, and visibly rejuvenated skin.

90%

Experience Visible Transformation

In just two weeks, 90% of users experienced a transformative shift in their skin's texture. Beyond mere hydration, the ViVi solution delivers a radiant, high-definition glow that speaks for itself.

Comprehensive Skin Renewal Benefits

Refined Texture

Achieving unparalleled smoothness and a silk-like finish for a sophisticated skin texture.

Luminous Brightening

A profound radiance boost that unveils a naturally vibrant and translucent complexion.

Deep Hydration

Infusing long-lasting, multi-layer moisture to restore suppleness and youthful plumpness.

Balanced Skin

Harmonizing oil production to cultivate a serene, clear, and perfectly stabilized complexion.

The Journey to Total Skin Renewal

Week 1 Prepare & Reboot

Resetting the skin barrier for maximum absorption and a smooth start.

Week 2 Glow & Hydrate

Igniting deep-tissue moisture and activating a translucent radiance from within.

Week 3 Firm & Density

Strengthening the skin's foundation with PLLA-driven collagen boost for superior density.

Week 4 Perfect & Reveal

Unveiling a flawlessly refined and rejuvenated complexion with long-lasting results.

How to Use: The ViVi Protocol

Recommended Usage for Professionals

Post-Procedure Care (Immediate Recovery)

Distribute evenly onto treated skin after laser or MTS to maximize healing synergy. It provides an instant soothing effect and deep-tissue hydration without excessive downtime.

Daily Skincare (Long-term Vitality)

Use daily after cleansing to preserve the skin's moisture barrier. Regular application fosters proactive collagen support, maintaining a resilient and stabilized glow all day long.

Brand Positioning

Redefining Professional Beauty with a Unique Edge

Retro-Modern Allure

ViVi reinterprets classic beauty with a retro-inspired identity, seamlessly integrated with cutting-edge science. This distinctive positioning captures attention in a crowded market, catering to a lifestyle that appreciates "vintage-chic" without compromising on results.

Clinical Excellence in Every Drop

Our dual approach prioritizes pharmaceutical-grade effectiveness wrapped in an elegant aesthetic. ViVi is the ideal choice for those seeking a premium, professional-grade experience that delivers visible transformation through advanced biotechnology.

Join the ViVi Revolution

Driving Global Skincare Excellence Together

Who We Are

At K-Na Holdings, Ltd., we pioneer the fusion of innovative medical technology and artistic design. By offering a unique portfolio of premium skincare solutions, we empower clinics and professionals worldwide to provide transformative results that exceed client expectations.

Let's Connect

Ready to elevate your professional offerings? Explore our partnership programs at <https://www.knamedicos.com>. Join a global network of experts dedicated to delivering ViVi's cutting-edge solutions to discerning clients and high-end clinics worldwide.

Thank You

We appreciate your dedication to excellence in skincare.

Questions?

We welcome any technical or clinical inquiries regarding the ViVi Ampoule Solution. Whether you have questions about its unique biochemical properties or potential integration into your professional protocols, our team is here to provide comprehensive support. Your professional insights are highly valued.

Connect with Us
